Dear Lanny,

PROJECT

Feed Line — Cracking Mill
9" x 24" Single-Pair Cracker — 18-20 TPH

REFERENCE

20260923-1
Prepared: Sep 23, 2026
Validity: **through Oct 23, 2026**
Currency: USD

Thank you for the opportunity to quote a cracking mill for Top Bead Welding's feed line. Enclosed is our proposal for one (1) 9 in. x 24 in. single-pair cracker sized for 18-20 TPH service, supplied complete with hydraulic roll openers, tramp-metal protection, inlet hopper, motor, and mill stand.

The unit is quoted as a complete, ready-to-install assembly - rolls, drive, magnets, hopper, motor, and stand are supplied together so there is nothing further to source before the mill goes into the line. Please note that a signed purchase order is required to secure a production slot; the 6-8 week delivery window begins on receipt of that order.

I would be glad to walk through the proposal and answer any questions on capacity, roll corrugation, or installation. Please reach out any time at jason@usemce.com or 772-200-4060.

1. SCOPE OF SUPPLY AND PRICING

USD · taxes and freight excluded unless noted

ITEM	DESCRIPTION	QTY	UNIT PRICE	EXTENDED
1	9" x 24" Single-Pair Cracker (Roller Mill) - Single-pair (two-roll) cracking mill, 9 in. roll diameter x 24 in. roll face 1:1 roll speed ratio, cracking duty - Estimated capacity 800 lb/min at a 4-5 piece crack - One (1) set of rolls, 6/6 spiral corrugation - Hydraulic roll openers - Removable finger magnets for tramp-metal protection 3 ft. inlet hopper 15 HP, 3-phase, 230/460 V totally-enclosed fan-cooled (TEFC) motor - Standard mill stand - Delivery: 6-8 weeks after receipt of order	1	\$27,079.00	\$27,079.00
Subtotal				\$27,079.00
TOTAL — AS QUOTED				\$27,079.00

2. COMMERCIAL TERMS

Pricing - USD, EXW Midwest Custom Engineering. Freight, rigging, offloading, installation, electrical hookup, and applicable taxes are excluded unless expressly stated above.

Payment - 50% due with purchase order; balance due in full prior to shipment. A signed purchase order is required to be placed on the production schedule; a shipping date cannot be guaranteed without receipt of a purchase order.

Delivery - 6-8 weeks after receipt of order. Lead time is confirmed at order placement and may change if the order is released after the validity date shown above.

Validity - This quotation is valid through the date shown above. Quotations are subject to re-confirmation after that date.

Tariffs - In the event of any new or increased tariff, duty, customs charge, tax, or similar imposition on the cost of any materials or services required to produce the quoted equipment, the quoted pricing may be increased commensurate with the resulting increase in cost.

Scope - Equipment is supplied to the specification listed above. Any change in capacity, material, roll corrugation, motor voltage, or accessories may change price and delivery.

3. ACCEPTANCE
